# USK

The Town of Flowers

Usk Bridge

Usk Castle

Town square

The town of Usk is steeped in history, from the ruins of a Norman castle to the seventeenth century buildings that adorn the cobbled streets. It sits on one of the finest salmon fishing rivers in the country, the River Usk. It's 11th century castle is the backdrop for an enchanting, romantic garden.

Usk's charm also lies in the range of its small independent shops, tearooms and pubs, riverside walks and bulging hanging baskets and its well stocked Rural Life Museum and annual agricultural show. And its convenient location, less than 10 miles from the M4, yet feeling a whole world away.

We are located just a short stroll over the River bridge from this beautiful town.
